## Description

This villa is characterised by a unique style with oriental accents and a continuous touch of luxury that is immediately noticeable as soon as you open the door. Unique works of art adorn the living rooms and bedrooms, giving each room an individual touch.

Upon entering the house, guests walk through beautiful Bali doors into an open-plan living area. This is surrounded by floor-to-ceiling windows and doors overlooking the impressive pool deck and spectacular island scenery. A light-flooded kitchen, a dining area and two separate lounge areas round off the spacious main living area.

The pool deck offers a breathtaking 270° panoramic view over Ibiza. With an integrated bar, a spacious dining area and comfortable seating for numerous guests, this area is ideal for festive occasions or relaxed social dinners.

The master suite is located on the same level as the pool deck and, like all rooms, offers a magnificent view. A balcony invites you to enjoy the morning sun with a cup of coffee. The master suite also has a luxurious, individually designed bathroom and a walk-in wardrobe.

The other bedrooms, including a children's room with built-in bunk beds, are located on the lower floor. Another stylish living and dining area connects to the garden and the remaining bedrooms and living areas. Two of the luxurious bedrooms with en-suite bathrooms are designed with creative artwork and unique décor pieces, providing a special experience for every guest. Comfortable beds, generous bathrooms and spacious showers guarantee guests of this villa an exclusive experience. Maximum comfort is ensured by the use of the highest quality bed linen, sheets and towels.

There are two villas on the property that invite large groups to enjoy the upscale style of one of Ibiza's most fashionable neighbourhoods, Can Furnet. While Villa Be One comprises four bedrooms with en-suite bathrooms, including the inviting children's bedroom, Villa Be Two offers six spacious, apartment-style bedrooms with large bathrooms and kitchenettes.

Both villas can be rented separately or together. Together they offer 10 bedrooms and space for up to 20 people. They share a spacious roof terrace, which has an outdoor cinema, a sound system, a large dining table for up to 30 people and an impressive 360° view of the island.
