## Description

Due to its far-flung location, there are very few lodges in this pristine section of the park, allowing for an intimate and exclusive Serengeti safari experience. Twice-daily game drives from the lodge often encounter large lion prides and clans of hyena, big herds of resident plains game as well as the special black-and-white colobus monkeys, found nowhere else in the Serengeti. Using the natural bow shape of the river, and paying homage to the circular forms of a traditional Maasai manyatta, the lodge unfolds to reveal an understated sense of luxury.
